TECHNICAL SKILLS

Development : C / C++ - Python - Shell

Web : VueJS/TS - NestJS - PrismaORM

Database : PostgreSQL - MySQL

Machine Learning : Python - Numpy - Panda

Versionning : Git

Tools : Docker - Virtualbox

LANGUAGES

- French - native
- English - B2
- Arabic

INTERESTS

Sports :
Football - Basketball - Weight Lifting

Videos Games:
Strategy - Adventure

Hobbies :
Chess - Reading

Continuous Development
Programming - Cooking

STAGE EN MACHINE LEARNING

EDUCATION
Since 2021

42 School Paris
Main projects :

Transcendance : *Website including a chat, online Pong game and authentication process*

- Front-end - VueJs
- Back-end - Nestjs with Prisma ORM
- Database - PostgreSQL
- Use of Websockets
- Oauth and 2FA using JWT

Autonomous - Teamwork - Code Review

Linear Regression: *Data analysis method to predict an expected value*

- Data Processing
- Linear relationship between dependent and independent values
- Analysis of correlations between expected and obtained values
- Visualization of results using the mathplotlib library

Model Validation - Regression Analysis

Personal Projects
Cacophone : *Presentation of statistical data on societal topics by converting them into music, making temporal trends easier to understand than traditional tables and graphs.*

- Arduino
- Hands-on electronics learning
- Tests and results analysis
- Cross-schools collaboration

Open-mindedness - Curiosity

Highschool Diploma:
2024 - 2023

Major in biology sciences
Minor in maths and physics sciences

Thoroughness - Responsibility

EXPERIENCES

DELEGATE OF 42 PARIS	2024 - 2023
